## **DETAILED ACTION**

### ***Election/Restrictions***

1. This application contains claims 12-20 drawn to an invention nonelected without traverse. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

### ***Claim Objections***

2. Claim 22 is objected to under 37 CFR 1.75 as being a substantial duplicate of claim 2. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 22 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The limitation of "further comprising a mechanical link..." (line 1) presents confusion whether or not an additional mechanical link is being claimed than that which is present in claim 1.

### ***Claim Rejections - 35 USC § 102***

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 3721

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1 and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Groenenberg (US 6,277,059).

Groenenberg discloses a folding machine comprising housing 2 with a adjustable fold plates 30 and 31 for providing alignment for the folding procedure with adjustment bar 50; input table; stacking table 8; stacking arm 43 with rollers 42; stacking arm 43 is part of adjustable transport device 33 which is linked to adjustable plates 31; see figures 2-4 and column 4, lines 2-15.

***Claim Rejections - 35 USC § 103***

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claim 11 is rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Groenenberg (US 6,277,059) in view of Applicant's Admitted Prior Art.

Groenenberg does not directly disclose a removable plate enclosing a processing area of the housing however it is well known that such devices as the printer apparatus and its housing 2 would inherently contain doors/lids/openings for accessing the components therein which could be removed in a two step process ie. opening and

Art Unit: 3721

removing/disconnecting. It would have been obvious as a matter of common knowledge to one of ordinary skill in the art to include a removable (by a two step process) plate in the housing for accessing the inner components/workings.

***Allowable Subject Matter***

9. Claims 2-10 and 22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

10. Applicant's arguments filed 5/25/05 have been fully considered but they are not persuasive. While collection tray 10 of Groenenberg accepts folded products directly from transport device 33, the stacking table 8 of Groenenberg is further downstream for receiving the products and is positioned adjacent housing 2 therefore meeting the limitations of claim 1 (and 21); see column 2, lines 50-63.

Regarding the limitation "for assisting in stacking of the processed paper sheets", the roller 42 aids the transport of the products to be stacked therefore indirectly "assists in stacking". Note that during patent examination, the claims are given the broadest reasonable interpretation consistent with the specification. See *In re Morris*, 127 F.3d 1048, 44 USPQ2d 1023 (Fed. Cir. 1997). See MPEP § 904.1. Furthermore, while features of an apparatus may be recited either structurally or functionally, claims directed towards an apparatus must be distinguished from the prior art in terms of structure rather than function. See *In re Schreiber*, 128 F.3d 1473-78, 44 USPQ2d

Art Unit: 3721

1429-32 (Fed.Cir. 1997) and *Hewlett-Packard Co. v. Bausch & Lomb Inc.*, 909 F.2d 1464, 1469, 15 USPQ2d 1525, 1528 (Fed.Cir. 1990).

The common knowledge modification in above paragraph 8 is taken to be admitted prior art because applicant failed to traverse the examiner's assertion of official notice.

### ***Conclusion***

11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
